Subject: RE: summary of meeting with Powertech

Sadie and Douglas:

This is a very good summary. Thanks for pulling it together. I have nothing to add.

Cal

Subject: summary of meeting with Powertech

Attached are draft meeting notes from last month's meeting with officials from Powertech regarding UIC permitting actions at the Dewey Burdock site in SD. Please take a look at the notes and let me or Douglas know if you have any additions/changes to the notes. We tried to capture all major items but we may have missed something. We would like to finalize and share with others (Lucita, Valois) and we will include in our records file. Thanks.
